Technical & Solutions Engineer with over 4 years at AWS. AWS Certified Solutions Architect, Developer Associate and Lambda SME. I bring a unique combination of Cloud Infrastructure knowledge and hands-on coding experience. I'm eager and quick to learn new skills and have a problem-solving mindset. Currently in Dublin, relocating to Prague (available Sep 2025)

EXPERIENCE

NOV 2024 – PRESENT

INDEPENDENT DEVELOPMENT & TRAVEL

- Completed *The Odin Project* full-stack curriculum, building projects with HTML, CSS, JavaScript, React, Node.js, and PostgreSQL through self-guided study.
- Travelled solo gaining cross-cultural perspective, adaptability, and self-reliance.

JUNE 2023 – NOV 2024

CLOUD SUPPORT ENGINEER II, AMAZON WEB SERVICES

- Built and maintained automation scripts and internal tools for diagnosing and resolving recurring issues.
- Worked with large-scale, event-driven architectures using Step Functions, SQS, and Lambda to identify bugs, optimize performance, and recommend improvements.
- Authored knowledge base articles, conducted webinars, and mentored junior engineers, contributing to team success and customer enablement.
- Collaborated with AWS service teams to resolve critical customer incidents and influence service improvements.

MAY 2021 – JUNE 2023

CLOUD SUPPORT ENGINEER I, AMAZON WEB SERVICES

- Expanded expertise in AWS Serverless, handling more complex customer cases involving event-driven architectures and microservices.
- Achieved Lambda Subject Matter Expert (SME).
- Gained experience with the AWS CDK, AWS SDK, and AWS CI/CD.
- Collaborated with internal teams to streamline processes and contribute to knowledge base content for improved customer support.

JULY 2020 – MAY 2021

CLOUD SUPPORT ASSOCIATE, AMAZON WEB SERVICES

- Developed foundational expertise in AWS services, with a focus on Serverless including AWS Lambda, API Gateway, and Step Functions.

EDUCATION

SEPTEMBER 2016 – MAY 2020

BSC (HONS) COMPUTER SCIENCE INFRASTRUCTURE DT211, TECHNOLOGICAL UNIVERSITY DUBLIN, CITY CAMPUS

Graduated with a second-class honour, first division. The course focused on Unix / Linux Systems, Cloud Computing, System Infrastructure. Software development in Python, C, C# and Java, Web Development (JS, HTML, CSS). CCNA 1 - 4, and agile development methodologies.

FEBRUARY 2018 – JUNE 2018

HANYANG UNIVERSITY, SOUTH KOREA

Studied abroad semester as part of a scholarship. Computer Networking, Linear Algebra and Programming in C#. Achieved beginner level proficiency in the Korean Language.

SKILLS & CERTIFICATIONS

CLOUD & INFRASTRUCTURE

- AWS (Lambda, API Gateway, Step Functions, SQS, Kinesis, VPC & Networking, IAM & more)
- IaC - AWS CDK, CloudFormation, Serverless Application Model (SAM), Terraform
- Docker
- REST APIs
- Relational Databases (AWS RDS) & PostgreSQL
- NoSQL Databases

PROGRAMMING & SCRIPTING

- Python (scripting, automation)
- Web Development - React, JavaScript, HTML, CSS, Express.js
- Test Driven Design

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- AWS Certified Developer – Associate
- AWS Lambda Subject Matter Expert (SME)

COLLABORATION & COMMUNICATION

- Technical documentation and knowledge base authoring
- Webinar and training delivery
- Mentorship and onboarding for junior engineers
- Version control with Git and GitHub
- Fluent in Polish & English

PERSONAL LIFE

Avid reader (fiction, philosophy), fitness enthusiast (gym, hiking, even trekked volcanoes in Indonesia), and lifelong gamer. PC Enthusiast as well and have built multiple computers throughout my life.
